

PLEASE HELP THE BLOCKADE TO STOP NEW COAL MINES IN N NSW

The coal industry wants to put 3 open pit coal mines in Leard State Forest, near Boggabri. Already 3% of the forest is mined, but the mines would clear around 70% of the forest and decimate a climate refuge as prime agricultural land. This is the start of the coal industry's expansion into the Gunnedah Basin and Liverpool Plains.

We believe we can stop these mines with the local community and have set up the first long-term blockade of a coal mine in Australia's history.

Come with your friends to join us for a skillshare, mine tour, fun and action this week or (if you can't make it), come at any time.

If you are concerned about open-pit mining, forests, climate, water, biodiversity, food sovereignty, coal-seam gas, mountain-top removal or democracy, it's time to take action at Leard State Forest!

Bring camping gear and enough to be self-sufficient with food and water, as well as warm clothing/blankets for the cold nights!

For more information call Jono on 0431 289 766 or Muzz on 0418 754 869.

IF YOU CAN'T COME YOURSELF, PLEASE DONATE MONEY OF EQUIPMENT.

The Rainforest Information Centre has donated \$500, please help if you can.

Boggabri camp is on now. Your time is by far the most valuable thing you can donate. but everything on the list will increase the effectiveness of the camp.

WISH LIST

Telstra pre paid phone with external aerial

Solar system to charge phones, cameras and computers

First aid kit

D locks, elbow lock-ons and materials to build dragons. dog clips and 2mm cable
bicycle

mattock, spade, sledgehammer, block splitter, bush saw
