

DEEP ECOLOGY

With John Seed & Megan Wallace

12 - 14 March 2010

EARTH, SPIRIT, ACTION - an experiential deep ecology workshop.

Human identity exists at the intersection of the ancient cycles of air, water and soil. In spite of the pervasive illusion of separation, in reality no separation is possible between nature and ourselves. Arne Naess, Emeritus Professor Philosophy at Oslo University, suggested that what is needed are community therapies 'healing out relations to the widest community, that of all living beings'. By acknowledging our interconnectedness we invite the spontaneous healing of psyche. In this workshop we participate in a series of processes and rituals informed by those used by indigenous peoples throughout time. Using personal sharing, experiential deep ecology and creative exercises, we will dissolve the separation between persons and planet Earth. Vision and empowerment arise naturally from realigning ourselves with the living Earth.

Central Coast, an hour from Sydney

Workshop: \$200 waged - \$100 unwaged/student

All money raised will support an indigenous agriculture project in India.

You'll need a tent, sleeping bag etc.
